

## **Directions to CEMTEC Viana from Talatona/Luanda Sul**

Get on the motorway from Talatona and go out to Viana. Either along the coast road through Benfica or turn right after Sonangol Condominium ZR1 and go down to the stream and follow signs to Stadium/Autoestrada/Viana/Cacuaco

Pass the football stadium on left and keep going for another 10km and pass over the water canal in Kikuxi.

About 2.5 km past the canal you will then see on right hand side a load of Chinese apartment blocks (Zango) and the CIF nursery 'Viviero de Plantas' (mainly trees). You then need to take the 'U' turn in front of CIF and head back toward Luanda. About 800m back towards Luanda is the main road to Viana (sign to Vila Viana) on the right.

Follow this tarred road for 2 km past a new Sonangol gas station on right, passing a new office/shop complex (called Viana Park) then a Pumangol station on left.

Keep going another 1.7km until you come to NEUCE a new glass covered building on right hand side where you turn right onto a new tarred road.

Go along the new road for 2.3 km passing Komatsu earth moving machinery on the right hand side until you see TOYOTA on right hand side. On left side is Polo TDA (Texeira Duarte). Turn left here onto the very wide dirt track with big electric pylons.

Keep driving with the pylons always on your left side for 700m through a 'cross road' and ahead on your right hand side you will see multicoloured teardrop flags and a blue gate. That is where CEMTEC is located.

**GPS coordinates at entrance gate: Lat 8° 55'28.52" Long 13° 23'24.97E**
